

# Part 150 Noise Compatibility Study Table of Contents

---

Contents	I
Tables	III
Illustrations	V
Appendices Contents	VII
Acronyms	VIII

## *Chapter 1* **INVENTORY**

---

Introduction	1.1
Jackson Hole Airport	1.3
Airspace and Air Traffic Control	1.9
Current Noise Management Program	1.15
Flight Track and Noise Monitoring System	1.25
Airport Environs	1.28

## *Chapter 2* **FORECASTS**

---

Introduction	2.1
Background	2.1
Forecast Methodology	2.2
Historic Airport Activity	2.3
Aviation Activity Forecasts	2.5
Summary	2.14

## *Chapter 3* **BACKGROUND ON NOISE**

---

Introduction	3.1
Characteristics of Sound	3.2
Factors Influencing Human Response to Sound	3.9
Potential Effects of Noise	3.10
Sound Rating Scales	3.15

Noise/Land Use Compatibility Standards and Guidelines	3.19
Noise Assessment Methodology	3.26
Noise Measurement Survey	3.27
Computer Modeling	3.32

*Chapter 4*

**EXISTING AND FUTURE NOISE EXPOSURE**

---

Introduction	4.1
Existing Base Case Noise Modeling Inputs	4.1
Existing Base Case Noise Contours	4.15
Future Base Case Noise Modeling Inputs	4.17
Future 2020 Base Case Noise Contours	4.20

*Chapter 5*

**LAND USE ANALYSIS**

---

Introduction	5.1
Methodology	5.1
Existing Land Use Analysis/Existing Noise Contours (2014 Base Case)	5.3
Existing Population Analysis/Future Noise Contours (2020 Base Case)	5.3

*Chapter 6*

**POTENTIAL NOISE ABATEMENT MEASURES**

---

Introduction	6.1
Background	6.2
Roles and Responsibilities	6.4
Regulatory Context – National Noise Reduction Efforts	6.5
Discussion of Measures Available	6.6
Summary	6.10

*Chapter 7*

**ANALYSIS OF NOISE ABATEMENT ALTERNATIVES**

---

Introduction	7.1
Navigation Terminology	7.2
Alternatives Considered	7.5
Alternative A1 – RNP-AR Arrival Procedure for Runway 19	7.7
Alternative A2 – Charted Visual RNAV/Company Special RNAV Arrival Procedure	7.15

Alternative A3 – Increased Use of Runway 01 for Arrivals	7.22
Alternative A4 – RNAV Standard Instrument Departure (SID) for Runway 19	7.29
Alternative A5 – RNAV Standard Instrument Departure (SID) for Runway 01	7.35
Alternative A6 – Waypoint Noise Abatement Flight Paths	7.41
Alternative A7 – Avoid Low Flying Aircraft Operations Over GTNP	7.51

*Chapter 8*

**LAND USE, FACILITY AND ADMINISTRATIVE ALTERNATIVES**

---

Introduction	8.1
Land Use Alternatives	8.3
Administrative and Facility Alternatives	8.6

*Chapter 9*

**ISSUES/ACTIONS AND RECOMMENDATIONS**

---

Introduction	9.1
Future Noise Exposure Map	9.2
Future Combined Recommendations Map	9.2
Recommendations	9.6

*Chapter 10*

**CONSULTATION**

---

Introduction	10.1
Study Input Committee	10.1
Public Meetings and Comments	10.1
Public Hearing	10.1

**Tables**

---

Table 1-1 INSTRUMENT APPROACH PROCEDURES	1.13

## **Appendices Contents**

---

**APPENDIX A: USE AGREEMENT AND NOISE PROTOCOL**

**APPENDIX B: FORECAST APPROVAL LETTER**

**APPENDIX C: NOISE MONITORING APPENDIX**

**APPENDIX D: SUPPLEMENTAL METRICS APPENDIX**

**APPENDIX E: NEXTGEN BACKGROUND**

**APPENDIX F: RECORD OF APPROVALS**

**APPENDIX G: PUBLIC INVOLVEMENT**

## List of Commonly Used Acronyms

---

AMSL	Above Mean Sea Level
ARFF	Aircraft Rescue and Fire Fighting
ARP	Airport Reference Point
ARTCC	Air Route Traffic Control Center
ASLF	Approach lighting System with Centerline Sequenced Flashing Lights
ATCT	Airport Traffic Control Tower
CFR	Code of Federal Regulations
DOI	United States Department of the Interior
DME	Distance Measuring Equipment
DNL	Day-Night Noise Level
EDF	Airport Reference Code for Elmendorf Air Force Base
FBO	Fixed Base Operator
FAA	Federal Aviation Administration
FCC	Federal Communication Commission
GA	General Aviation
GTNP	Grant Teton National Park
HIRL	High Intensity Runway Edge Lights
IFR	Instrument Flight Rules
ILS	Instrument Landing System
JAC	Airport Reference Code for Jackson Hole Airport
LOA	Letter of Agreement
MSL	Mean Sea Level
NAS	National Airspace System
NAVAIDS	Navigational Aids
NCP	Noise Compatibility Program
NEM	Noise Exposure Map
NM	Nautical Mile
NPS	National Park Service
RSIP	Residential Sound Insulation Program
STAR	Standard Terminal Arrival Route
TRACON	Terminal Radar Approach Control
VFR	Visual Flight Rules
VOR	Very High Frequency Omni-Directional Radio- Range
